### **Program Results and Effect:**

The manner in which we respond to those we serve is more timely and accurate. The communication of Department employees and those the agency serves is more effective and timely. Personnel are better trained for Department issues to help them grow and develop within the Department.

For more information contact Stephen Anderson at 334-3781.

The Enforcement Bureau supplements the Idaho Department of Fish and Game's (IDFG) overall mission of protecting, preserving, perpetuating, and managing the state's wildlife resources by providing consistent and equitable law services to ensure that public compliance with established regulations remains within acceptable management levels.

# **Major Functions and Targeted Performance Standard(s) for Each Function:**

- 1. Improve public compliance with wildlife regulations.
  - A. Check >15% of license holders for regulation compliance.

|       | Actual    | Results   |        |
|-------|-----------|-----------|--------|
| 1997  | 1998      | 1999      | 2000   |

# **Program Results and Effect:**

The presence of effective law enforcement services is directly responsible for the IDFG's ability to offer the public a wide variety of consumptive and non-consumptive recreational uses of the state's wildlife resources. The state's abundance of wildlife and varied recreational opportunities directly affect the public's quality of life and the state's overall economy.

For more information contact Brent Hyde at 334-3736.

The Fisheries Bureau provides, as permitted by law, continued supplies of fish for fishing and intrinsic values.

# Major Functions and Targeted Performance Standard(s) for Each Function:

- 1. Provide viable fish populations now and in the future for recreational, intrinsic, and aesthetic uses.
  - A. Develop and implement statewide fisheries programs.

|      | Actua    | l Results  |      |

#### **Program Results and Effect:**

The major thrust of Fisheries Bureau activities is supplying game fish for sport fishing. Protection and restoration of fish habitat and water quality are integral parts of the fisheries program. The current focus of the anadromous fish program is to maintain fishable supplies of hatchery steelhead, preserve remaining stocks of salmon and wild steelhead, restore salmon to non-threatened levels, and revive fisheries for wild steelhead and Chinook. Providing public access to Idaho waters allowing anglers the opportunity to participate in sport fishing.

For more information contact Bill Horton at 334-3791.

The Wildlife Bureau serves Idaho citizens and nonresidents by managing wildlife for hunting, trapping, wildlife viewing, and intrinsic values. Wildlife management and research is integrated with all other wildlife related programs to ensure that these programs are effective and that wildlife resources are available for Idahoans now and in the future.

#### Major Functions and Targeted Performance Standard(s) for Each Function:

- 1. Ensure that viable wildlife populations exist in the future for recreational and esthetic purposes.
  - A. Distribute recreational opportunity throughout the state.

|          | Actual Results |           |          |  |  |  |

### **Program Results and Effect:**

The Wildlife program is comprised of a team of professional and motivated individuals dedicated to providing consistency and leadership in the preservation, protection, and wise management of Idaho's wildlife resources. Three factors that influence the Wildlife Bureau's ability to accomplish its goals and objectives include: (1) the changing demographics of Idaho's population--it's growing older and more urbanized; (2) shifts in continental weather patterns that affect habitat and the wildlife that depends on it; and (3) the loss of wildlife habitat due to encroachment by an expanding human population in the state. We further recognize that Idaho's wildlife resources are dependent upon habitats provided on both private and public lands and will work with all parties to ensure those habitats are productive and available for wildlife populations in the future.

For more information contact Lonn Kuck, Tom Parker or Wayne Melguist at 334-2920.

The responsibility of the Bureau of Information and Education is to inform and educate the people of the State about their wildlife resources and to protect both the resources and the people during wildlife use activities.

# Major Functions and Targeted Performance Standard(s) for Each Function:

- 1. Prepare and distribute information using a variety of print and electronic media to reach Idaho residents and nonresidents.
  - A. Design and publish more than one million hunting and fish rules brochures annually.

|           | Actual Results |           |           |  |  |  |
|-----------|----------------|-----------|-----------|--|--|--|
| 1997      | 1998           | 1999      | 2000      |  |  |  |
| 1,100,000 | 1,100,000      | 1,100,000 | 1,100,000 |  |  |  |

# **Program Results and Effect:**

Increase public knowledge and involvement of Idaho's wildlife resources, hunting and fishing opportunities, and wildlife populations, condition, and status. Information provided will enhance citizen recreational experiences and will increase citizen opportunity to participate in management decisions. Provide an understanding of the needs of wildlife, responsible individual and public action, and support of sound programs and policies to protect and benefit wildlife resources and people.

For more information contact John Gahl at 334-3746.

The Engineering Bureau ensures that facilities owned and operated by the Idaho Department of Fish and Game (IDFG), including such items as buildings, fish hatchery facilities, water control and fish passage structures, and sportsman sites are constructed and maintained in a cost-effective, efficient, and safe manner for the benefit of all citizens of Idaho.

#### Major Functions and Targeted Performance Standard(s) for Each Function:

- 1. Provide those facilities necessary to enable the IDFG to meet public resource objectives.
  - A. Completion of 50 to 70 design and construction projects annually.

|      | Actual Results |           |      |  |  |
|------|----------------|-----------|------|--|--|
| 1997 | 1998           | 1999      | 2000 |  |  |

### **Program Results and Effect:**

Benefits of this program are measured by routine day-to-day operation and use of IDFG facilities without disruptions due to operational failures, and by improvements in public access statewide, as identified in the Idaho Sportsman's Access Guide and by the increased production at the fish hatcheries and wildlife management areas.

The public also benefits in the form of access for able and handicapped persons to all IDFG facilities; efficient and uninterrupted production of fish at hatcheries; wildlife and recreation benefits resulting from use of water control and fish passage devices; and ease of sportsman access to Idaho recreation areas via boat ramps, docks, campgrounds, and restroom constructed for public use.

For more information contact Phil Jeppson at 334-3730.

The Natural Resources Policy Bureau of the Department of Fish and Wildlife serves Idaho citizens by carrying out the legislative mandate to preserve, protect, and perpetuate Idaho's fish and wildlife by encouraging wise management of land and water to minimize fish and wildlife habitat losses.

# **Major Functions and Targeted Performance Standard(s) for Each Function:**

- 1. Protect and preserve fish and wildlife habitats.
  - A. Review and comment on 99% of environmental impact documents pertaining to fish and wildlife resources within mandated timeframes.

|      | Actual Results      |           |      |  |  |  |

#### **Program Results and Effect:**

The Natural Resources Policy Bureau provides single point-of-contact with other agencies and entities to protect and preserve fish and wildlife habitats; to provide timely, accurate technical information on land and water management action to minimize adverse impact to (or mitigation for) publicly-owned resources; and to collect and disseminate biological, social, and economic information on Idaho's fish and wildlife resources and associated recreation.

For more information contact Tracey Trent at 334-2595.

The Wildlife Bureau coordinates the statewide big-game winter feeding and depredations management program.

# Major Functions and Targeted Performance Standard(s) for Each Function:

- 1. Coordinate statewide big-game winter feeding program.
  - A. Feed big-game to prevent damage to private property.
